

Project information

Keywords

Ecosystem services, cultural heritage

Project title

Evaluation of impacts of industrial development on cultural heritage and landscapes within an ecosystem services framework (EvaCES)

Year

2015

Project leader

Marius Warg Næss

Participants

Vera Hausner, UiT – The Arctic University of Norway; Einar Eythorsson, Elin Rose Myrvoll, Stine Barlindhaug, and Alma Thuestad, NIKU.

Flagship

MIKON

Funding Source

Fram Centre

Summary of Results

This pilot project had as its main aims to develop an interdisciplinary workshop and to prepare an application for a research project. The workshop will be arranged 20th of November and an application (Integrated coastal resource management and planning - ecosystem services and coastal governance (COREPLAN), with UiT and Nofima) was submitted to MILJØFORSK in September 2015. NIKU also submitted an application to MIKON for 2016 extending the current project. The project leader also participated as a panel member on the course "BIO-3004 Workshop 3. The ecosystem services approach"

Published Results/Planned Publications

Not relevant
